ist of Available Publications of the North Carolina Agricultural Extension Service, Experiment Station, and State Department of Agriculture

By F. H. JETER, *Agricultural Editor, and*
A. O. ALFORD, *Mailing Clerk*

The following publications are available to citizens of North Carolina on ıly 1, 1919, and may be had on application to the office of the Agricultural ditor, North Carolina Agricultural Extension Service, Raleigh, N. C.:

EXTENSION CIRCULARS

No. 1. Some Important Diseases of Tomatoes in North Carolina.
No. 2. Selecting Seed Corn for Larger Yields.
No. 3. The Colony Hog House.
No. 4. Curing Meat on the Farm.
No. 5. Report of Canning Club Work, December, 1914-December, 1915.
No. 6. The Proper Methods of Housing and Handling the Farm Flocks.
No. 7. Plans for Community Club Work in the Study of Foods and Household Conveniences.
No. 8. (1) Report of Boys' Club Work in North Carolina.
(2) Arithmetic Problems Based Upon Agricultural Club Work.
No. 9. The Soybean Industry of Eastern North Carolina.
No. 10. The Home Garden.
No. 11. Canning and Preserving with 4-H Recipes.
No. 12. Pig Club Manual. (Reprint.)
No. 13. North Carolina Credit Unions.
No. 14. Federal Farm Loan Act.
No. 15. Crimson Clover.
No. 16. Hairy Vetch.
No. 17. Grass Mixtures for North Carolina Pastures.
No. 18. Tobacco Curing Barns.
No. 19. The Southern Corn Bill Bug.
No. 20. Bur Clover for Improvement of Coastal Plain Soils.
No. 21. Rape for Hog Pasturage.
No. 22. Dehorning Cattle.
No. 23. From Wool to Cloth.
No. 24. How to Use Lime on the Farm.
No. 25. Score Card for Swine.
No. 26. Score Card for Beef Cattle.
No. 27. Score Card for Mutton Sheep.
No. 28. How to Secure Better Lawns in North Carolina.
No. 29. Commercial Use of the Soybean.

*Not available. Issue exhausted.

*No. 30. The Storage of Sweet Potatoes.
*No. 31. Dairy Cattle Score Card.
No. 32. Soil Survey Work in North Carolina.
*No. 33. Hog Houses and Equipment.
No. 34. List of Publications.
*No. 35. Poultry Score Card.
*No. 36. Where Good Seed of Recommended Varieties May be Obtained.
No. 37. Improving Seed in Scotland Neck Community.
*No. 38. Farmers' Limestone, Shell, and Marl Grinding Plants.
No. 39. How to Organize a Credit Union.
*No. 40. Farm Account Book.
No. 41. Developing Credit in the Community.
No. 42. A Sow and Her Two Litters of Pigs.
*No. 43. Home Garden Suggestions and Vegetable Seeding Calendar.
*No. 44. Premium List and Judges' Book for Community Fairs, 1917.
*No. 45. Premium List and Judges' Book for District Fairs.
*No. 46. Premium List and Judges' Book for County Fairs.
*No. 47. Premium List and Judges' Book for State Fair.
*No. 48. Spraying Irish Potatoes.
*No. 49. Fall or Second Crop of Irish Potatoes in Eastern North Carolin
No. 50. Drying of Fruits and Vegetables for Home Consumption.
*No. 51. Program Boys' Short Course.
No. 52. Bee-keeping Practice in North Carolina.
*No. 53. The Growing of Wheat in Eastern North Carolina.
No. 54. Length of Staple of Cotton Produced in North Carolina.
No. 55. A Farm Smokehouse and Smoke-building Contest for North Car lina Club Members.
*No. 56. Soybean Harvesters.
No. 57. Soybeans: A Future Economic Factor in North Carolina.
No. 58. A Meat-curing Contest for North Carolina Pig Club Membe and Curing Meat on the Farm.
*No. 59. Methods of Saving Sugar, Fats, Wheat, and Meat.
No. 60. What is a Credit Union?
No. 61. Tobacco Wild Fire.
No. 62. Home-making of Cottage and Buttermilk Cheese.
*No. 63. Where Good Seed of Recommended Varieties May be Obtained.
No. 64. Successful Sheep and Lamb Raising.
No. 65. Food Production Campaign for North Carolina.
No. 66. Orchard Spraying.
*No. 67. Boys' Agricultural Club Circular.
No. 68. The Organization and Management of Fairs.
No. 69. Fairs and Their Educational Value.
No. 70. Composition and Fertilizing Value of Farm Crops.
*No. 71. The Growing of Wheat in Eastern North Carolina.
No. 72. Fourth Annual Short Course Program.
No. 73. Industries Using North Carolina Timber.
*No. 74. Marketing North Carolina Farm Timber. (Not issued.)
No. 75. Buckwheat Production in North Carolina.

*Not available. Issue exhausted.

o. 76. The Canning of Fruits and Vegetables by 4-H Recipes. (Reprint and revision of Canning Methods in Circular No. 11.)
o. 77. List of Available Publications.
o. 78. Prevent Smut.
o. 79. The Fall Army Worm.
o. 80. Soybean Harvesters.
o. 81. The School Pig.
o. 82. By-Products from Meat Curing.
o. 83. Where Good Seed of Recommended Varieties May be Obtained.
o. 84. Growing Sweet Sorghum and Making Sorghum Syrup.
o. 85. Soybean Pastures for Hogs.
o. 86. Selected Community Club Programs.
o. 87. To Preserve Eggs for Winter Use.
o. 88. Growing Corn.
o. 89. A Colony Hog House.
o. 90. Farm Advertising.
o. 91. List of Available Publications.

AGRICULTURAL EXPERIMENT STATION PUBLICATIONS

Bulletins

o. 148. Pasteurization of Milk.
o. 153. Vinegar Adulterations.
o. 155. Baking Powders.
o. 156. The Adulteration of Flour.
o. 157. Mineraline.
o. 158. Fertilizer Control for 1908.
o. 162. Farming in North Carolina.
o. 163. Rational Stock Feeding.
o. 168. Experiments with Field and Forage Crops.
o. 172. The Digestibility of Some Non-Nitrogeneous Constituents of Certain Feeding Stuffs.
o. 173. Another Warning to the Compost Peddler.
o. 178. The Nature of Pentosoids and Their Determination.
o. 181. Silk Culture.
o. 185. The Black Rot of the Grape in North Carolina and Its Treatment.
o. 186. Insect and Fungus Enemies of the Peach, Plum, Cherry, Fig and Persimmon.
o. 187. Grapes and Small Fruits.
o. 188. The Granville Tobacco Wilt.
o. 189. Feeding Farm Horses and Mules.
o. 190. The Formation of Nitrates in the Soil.
o. 194. Mulberries.
o. 195. Farm Poultry.
o. 196. Some Apple Diseases.
o. 197. Some Insect Enemies of Garden Crops.
o. 198. Handling and Marketing Milk and Cream.
o. 199. Feeding Experiments with Cows and Calves.

*Not available. Issue exhausted.

No. 200. Feeding Fermented Cotton-seed Meal to Hogs.
No. 201. Scuppernong and Other Muscadine Grapes. Origin and Importance.
No. 209. Self-sterility of the Scuppernong and Other Muscadine Grape
No. 210. Improved Methods of Making Cottage and Neufchatel Cheese.
No. 212. Prevention of Oat and Wheat Smut.
No. 213. Feeding Experiments with Cows and Calves.
No. 214. Two Important Cantaloupe Pests.
No. 215. Cottonseed Meal Feeding Experiments with Horses and Mule
*No. 216. Feeding Cottonseed Meal to Draft Animals.
No. 217. A Serious Lettuce Disease.
*No. 218. Feeding Experiments with Beef Cattle.
*No. 219. Feeding and Management of Beef Cattle.
*No. 220. Care and Management of the Dairy Herd.
No. 221. Profitable Poultry Raising.
No. 222. Cottonseed Meal and Corn Silage Feeding Experiments wit Beef Cattle.
No. 223. Sheep Raising in North Carolina.
No. 224. Topworking Seedling Pecan Trees.
No. 225. How Shall Farmers Organize?
No. 226. Report of Variety Tests of Cotton for 1913 and a Summary Results for the Past Eleven Years.
*No. 227. Fertilizer Experiments with Cotton on Piedmont Cecil Sanc Loam Soil, and Varieties, Culture and Fertilization of Cotto on Piedmont Cecil Sandy Loam and Red Clay Soils.
No. 228. Air-cooled Apple Storage Houses.
*No. 229. Fertilizer Experiments with Corn on Piedmont Cecil Sandy Loa Soil, and Varieties, Culture and Fertilization of Corn on Pie mont Cecil Sandy Loam and Red Clay Soils.
No. 230. Variety Tests of Corn for 1914.
No. 231. Report on Variety Tests of Cotton for 1914.
No. 232. Results of Variety Tests of Wheat, Oats and Rye.
*No. 233. Common Diseases of Poultry.
No. 234. Farm Drainage in North Carolina.
No. 235. (1) Some Further Studies of Chick Mortality.
(2) When to Feed the Baby Chick.
No. 236. The Prevention and Control of Erosion in North Carolina, wi Special Reference to Terracing.
No. 237. Tobacco Culture in North Carolina.
No. 238. Harvesting Tobacco by Priming, or Picking the Leaves, as Co pared with Cutting the Stalks.
No. 239. Tobacco Flea-Beetle.
No. 240. Composite vs. One-day Sampling of Milk for the Babcock Te

Technical Bulletins

No. 8. A Serious Lettuce Disease and a Method of Control.
No. 9. Relation of the Mineralogical and Chemical Composition to t Fertilizer Requirements of North Carolina Soils.

*Not available. Issue exhausted.

No. 10. Breeding Rotundifolia Grapes.
No. 11. Self-sterility in Dewberries and Blackberries.
No. 12. Inheritance of Sex in Vitis Rotundifolia.
No. 13. Biological Investigations of Sphenaphorus Callosus.
No. 14. Repair of Bone in Domestic Fowl.
No. 15. A Monograph on Trembles, or Milksickness, and White Snakeroot.
No. 16. Clover Stem Rot.

BULLETINS OF THE NORTH CAROLINA STATE DEPARTMENT OF AGRICULTURE

The first issue of the State Department Bulletin in the present pamphlet form was made in July, 1899. It has been issued in this form each month from that date.

1906

February—Variety and Distance Tests of Corn.
March—Fertilizers.
April—Fertilizers.
May—Feeding of Beef Cattle.
June—Alfalfa: Growing and History.
July—Fertilizer Analyses.
September—The Cotton Plant: Composition of Parts.
October—Farmers' Institutes.
November—Concentrated Feedstuffs.
December—Food Adulteration.

1907

February—Variety Tests of Cotton and Corn.
March—Fertilizers.
April—Fertilizers.
September—Lettuce.
November—Feed Inspection.
December—Food Adulteration.

1908

February—Variety Tests of Corn and Cotton.
March—Fertilizers.
April—Fertilizers.
July—Analyses of Fertilizers and Cottonseed Meal.
*October—Commercial Apples.
November—Feed Inspection.

1909

January—Analyses of Fertilizers.
February—Variety Tests of Corn and Cotton.
March—Peanut Culture.

*Not available. Issue exhausted.

April—Analyses of Fertilizers.
May—Preparation of Fruits and Vegetables for Market.
June—Orchard Spraying.
July—Fertilizer and Cottonseed Meal Analyses.
*August—Culture of Wheat, Oats and Rye.
September—Pecan Culture.
September (Supplement)—Some Common Farm Birds.
October—Farmers' Institutes.
October (Supplement)—Insect Enemies of Tobacco.
November—Feed Inspection.
December—Food Adulteration and Law.

1910

January—Oil Inspection.
January (Supplement)—Winter and Spring Selection of Seed Corn.
February—Variety Tests of Corn and Cotton.
March—Fertilizer Analyses.
April—Fertilizer Analyses.
May—Canning of Fruits and Vegetables.
*June—Culture of the Cowpea.
June (Supplement)—Selecting Seed Corn.
July—Fertilizer Analyses.
August—Fertilizer Experiments with Cotton on the Piedmont and Red Cla Loam Soils of North Carolina.
August (Supplement)—Variety Tests of Wheat and Oats.
September—Fertilizer Experiments with Corn on the Piedmont and Re Clay Loam Soils of North Carolina.
September (Supplement)—Oil Inspection.
October—Farmers' Institutes.
*October (Supplement)—Estimates of the Food Products Shipped into Nort Carolina in 1909.
November—Feed Inspection.

1911

January—Fertilizer Analyses.
January (Supplement)—Condimental Feeds, Stock and Poultry.
February—Variety Tests of Corn and Cotton on Different Types of Soi
February (Supplement)—Report Test Farm Work on Buncombe and Tran sylvania Farms.
March—Fertilizer Analyses.
March (Supplement)—Report of Farm Work on the Iredell Test Farm.
April—Fertilizer Analyses.
May—Preliminary Report on Mountain Soils.
June—Cooperative Experiments and Demonstrations.
July—Insect Enemies of Cabbage.
July (Supplement)—Report of Seed Tests.

*Not available. Issue exhausted.

August—Fertilizer Analyses.
September—Pecans.
September (Supplement)—Oil Inspection.
October—Seed Tests.
October (Supplement)—Culture of Wheat and Oats.
November—Food Adulteration.
November (Supplement)—Feed Inspection.

1912

January—Influence of Soil Types on Plant Varieties.
February—History and Cultivation of the Cotton Plant.
March—Fertilizer Analyses.
April—Fertilizer Analyses.
June (Supplement)—(1) Corn Culture.
June (Supplement)—(2) Oil Inspection.
August—Fertilizer Analyses and Registration.
September—Truck Growing in North Carolina.
October—Seed Tests.
November—Feed Inspection.
November (Supplement)—Food Adulteration.
December—Farmers' Institutes.

1913

January—Fertilizer Analyses.
February—Variety Tests of Corn.
March—Fertilizer Analyses.
April—Some Important Diseases of Field Crops.
April (Supplement)—Oil Inspection.
*May—Dairy Herds in North Carolina.
June—Oyster-shell Scale.
July—Leguminous Crops in North Carolina.
August—Commercial Strawberry Culture.
September—Seed Tests.
October—Fertilizer Analyses.
November—Feed Inspection.
*December—Food Adulteration.

1914

January—Farmers' Institutes.
February—Variety Tests of Corn.
April—Fertilizer Experiments with Cotton on the Sandy Loam Soils of North Carolina.
May—Insect Enemies of Corn.
June—Fertilizer Analyses.

*Not available. Issue exhausted.

August—Experiments on Feeding Beef Cattle.
September—Seed Tests.
October—Feed Inspection.
November—Fertilizer Analyses.
December—Food Adulteration.

1915

January—Farmers' Institutes.
February—Report on Piedmont Soils.
*March—(Not issued).
April—Fertilizer Analyses.
May—Fertilizer Experiments with Corn on the Sandy Loam and Coast Plain Soils of North Carolina.
June—Spraying, Orchard Protection, and San Jose Scale.
July—(1) Agricultural Achievements and Problems in North Carolina. (2) North Carolina Land of Opportunity.
August—Cantaloupe Growing in North Carolina.
September—Seed Tests.
October—Feed Inspection.
November—Fertilizer Analyses.
December—Food Adulteration.

1916

January—Farmers' Institutes.
February—Report on Variety Tests of Cotton for 1915.
March—Prevention and Control of Hog Cholera by Use of Hog-chole Serum.
April—Report of Variety Tests of Corn for 1915.
*May—Ground Limestone or Marl.
June—Fertilizer Analyses.
July—Pruning Fruit Trees.
*August—Some Common Weeds of North Carolina, and Their Control.
September—Report of Seed Tests.
October—Fertilizer Analyses.
November—Feed Inspection.
December—Peach Growing in North Carolina.

1917

*January—Rational Use of Lime on the Farm.
February—Variety Tests of Corn.
February (Supplement)—Analyses of Fertilizers.
March—Fertilizer Analyses.
March (Supplement)—Registration Brands of Fertilizer.
April—County Soil Report No. 1 (Report on Mecklenburg County Soi Agriculture, and Industries).
May—Fertilizer Analyses.
June—County Soil Report No. 2 (Report on Gaston County Soils and Ag culture).

*Not available. Issue exhausted.

July—County Soil Report No. 3 (Report on Union County Soils and Agriculture).
July (Supplement)—Fertilizer Analyses.
August—County Soil Report No. 4 (Report on Cabarrus County Soils and Agriculture).
August (Supplement)—Fertilizer Analyses.
September—Report of Seed Tests for 1917.
October—(1) Analyses of Fertilizers, Fall Season, 1916, Spring Season,
(2) Analyses of Cottonseed Meal.
November—Commercial Feeds.
December—Crop Rotation Systems Adapted to Sections Infested with Tobacco Wilt.

1918

January—Wintering and Fattening Beef Cattle in North Carolina.
February—The Home Orchard.
March—Cotton Variety Tests for 1917.
April—Composite Premium List and Judges' Score Cards.
May—Report on the Coastal Plain Soils.
May (Supplement)—Seventeenth Annual Report on Food Adulteration.
June—Relation of Pulverized Limestone to Crop Production in North Carolina.
June (Supplement)—Fertilizer Analyses.
July—Registration Brands of Fertilizer.
August—Hessian Fly in Wheat.
September—Report of Seed Tests for 1918.
October—Results of the Guilford-Forsyth Cow-Testing Organization.
November—Commercial Feeds.
December—Extracts from Biennial Report N. C. Agricultural Department, 1916-1918.

1919

January—Fertilizer Analyses.
February—State Premium List for County, Community, District and State Fairs.
February—(Supplement) How Cooperative Fair Work in North Carolina is Carried On.
March—The Spraying of Irish Potatoes.
March—(Supplement) Fertilizer Analyses.
April—Great Pictures and Good Books and Bulletins.
April—(Supplement) Fertilizer Analyses.
May—Variety Tests of Corn.
May—(Supplement) Fertilizer Analyses.
June—The Farmers' Interest in Good Seeds, Etc.

*Not available. Issue exhausted.
